Septic System Permit Instructions

This application must be filled out completely in ink, typed or clearly printed and submitted to the Codes office for review and approval.

This application must be accompanied by two sets of design prints stamped and signed by a New York State licensed design professional.

The design and installation of a Waste Water Treatment System must conform to Appendix 75-A of the New York Sanitary Code.

Contactors must provide proof of New York State Workers Compensation and Disability Insurance prior to the issuance of a permit.

No part of the waste water treatment system shall be covered until the required inspections have been done and approved by the Authority Having Jurisdiction or its authorized agent.

PLEASE CONTACT THIS OFFICE AT LEAST 24 HOURS BEFORE PLANNED COVERING. Failure to contact this office prior to covering could result in work having to be removed at the owner's or contractor's expense to allow for all required inspections.

Tests and final inspection are to be made by a licensed design professional registered with the State of New York. A statement from said professional confirming the installation was completed in compliance with the system design plans shall be provided to this office prior to the issuance of a Certificate of Compliance.

The application fee for a septic system permit is \$45.00. Checks are to be made out to the Town of Florence.

Description of proposed Work:

The design and installation of all on site waste water treatment systems shall conform to Appendix 75A of the New York State Sanitary Code.

Findings of the percolation tests must be sketched on at least a minimum size of 8 ½ x 11 paper attached to this application and bear the signature of the engineer conducting the test. Show the location of all structures and location of the well if applicable.

Tests and final inspection shall be made by a Licensed Design Professional registered with the State of New York prior to covering any work. Said design professional shall submit a statement to the Code Enforcement Office confirming that the system was installed in accordance with their approved design plans and conforms with Appendix 75A of the New York State Sanitary Code.

NO PART OF THE WATER TREATMENT SYSTEM SHALL BE COVERED UNTIL THE REQUIRED INSPECTIONS HAVE BEEN CONDUCTED AND APPROVED BY THE AUTHORITY HAVING JURISIDITION OR ITS AUTHORIZED AGENT. TOWN INSPECTOR MUST BE NOTIFIED AT LEAST 24 HOURS BEFORE PLANNED COVERING.

My signature indicates I have read the requirements of the application and agree to allow the Town of Florence Code Enforcement Office or its authorized agent(s) to inspect the sufficiency of the work being done.

Site Plan Drawing*
*See sample on next page
for instructions

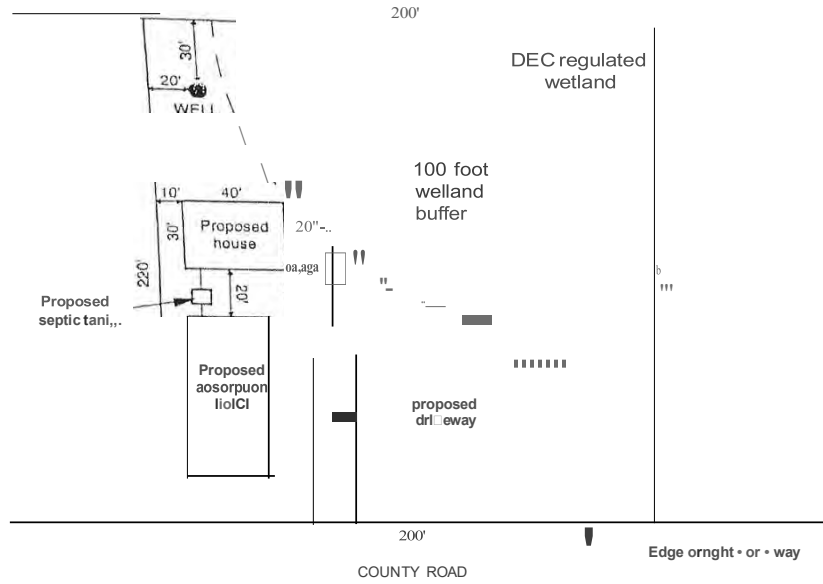

Must include:

- North arrow and scale
- Lot lines
- Existing and proposed buildings, dimensions and distance from lot lines
- Existing and proposed driveways and parking areas
- Existing and proposed roads
- Wetlands and buffer area
- Streams and floodplains
- Steep (unbuildable) slopes
- Existing and proposed water supply and sewage disposal facilities
- Show separation distance between well and sewage disposal facilities (if applicable)

Additional drawings may be submitted separately

SAMPLE SITE PLAN*

* Elements that should be included on a site plan are:

- North arrow and scale
- Lot lines
- Existing and proposed buildings, dimensions, and distance from lot lines
- Existing and proposed driveways and parking areas
- Existing and proposed roads
- Wetlands and buffer area
- Streams and floodplains
- Steep (unbuildable) slopes
- Existing and proposed water supply and sewage disposal facilities
- Existing and proposed landscaping and storm water facilities
(for large-scale projects only)
